## Air Ducting

Model Number	Product Name
 TX-SAC-N-GO-8	8" Ducting w/ Attached Storage Bag
 TX-SAC-N-GO-12	12" Ducting w/ Attached Storage Bag
 TX-SAC-N-GO-16	16" Ducting w/ Attached Storage Bag
 TX-SAC-N-GO-8-C	8" Electrically Conductive Ducting w/ Attached Storage Bag
 TX-SAC-N-GO-12-C	12" Electrically Conductive Ducting w/ Attached Storage Bag
 TX-SAC-N-GO-16-C	16" Electrically Conductive Ducting w/ Attached Storage Bag

- Three sizes available 8", 12" and 16"
- Ducting is designed with PVC coated fabric, steel spring wire helix and external PVC wear strip
- Electrically conductive ducting has carbon infused PVC coating along with a ground wire running the length of the duct
- Ducting was tested to UL 94 Standard and certified as fire retardant
- All ducting has its own storage bag attached for easy storing
- This design allows for multiple ducts to be connected for extended runs with no additional connectors
- Use either end of ducting when connecting to a fan or mover
- For use of suction or supply

The 8" ducting is designed to be used with the TX-3AM, TX-3AMS, TX-3AM-P, & TX-3AMS-P.

The 12" ducting is designed to be used with the TX-6AM, TX-6AM-P, or the TX-JF12 Jet Fan.

The 16" ducting is designed to be used with the TX-8AM, TX-8AM-P, TX-10AM, TX-10AM-P or the TX-JF16 Jet Fan.
